an Interscience® Publication
published by JOHN WILEY & SONS

Developmental Psychobiology is published bimonthly, one volume per year, by John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Copyright © 1984 by John Wiley & Sons, Inc. All rights reserved. Reproduction or translation of any part of this work beyond that permitted by Sections 107 and 108 of the U.S. Copyright Law without the permission of the copyright owner is unlawful. Second-class postage paid at New York, NY, and at additional mailing offices.

The code and the copyright notice appearing at the bottom of the first page of an item in the journal indicate the copyright holder's consent that copies may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the United States Copyright Law. The per-copy fee for each item is $4.00 and is to be paid through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970.

This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the Publisher, Wiley Journals.

Subscription price (1985): $114 per volume. Postage and handling outside U.S.A.: $26.00 (surface mail); $138.00 (air mail). Back volumes, microfilm, and microfiche are available for previous years; request price list from Publisher. Please allow four weeks for processing a change of address.

Claims for undelivered copies will be accepted only after the following issue has been received. Please enclose a copy of the mailing label or cite your subscriber reference number in order to expedite handling. Missing copies will be supplied when losses have been sustained in transit and where reserve stock permits.

Postmaster: Send address changes to *Developmental Psychobiology*, Subscription Department, John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Advertising: Inquiries concerning advertising should be forwarded to either the U.S. Advertising Representative, Weston Media Associates, 37 Gray's Farm Road, Weston, CT 06883, or to the European Advertising Representative, REW Space Sales, Apartment 1, 2 Gladstone Road, Kingston-upon-Thames, Surrey KT1 3HD, UK.

Manuscripts should be submitted to the Editors, *Developmental Psychobiology*, P.O. Box 10486, Raleigh, NC 27605. **Information for contributors** appears in the first and last issue of each volume. **All other correspondence** should be addressed to the Publisher, Wiley Journals, John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

The contents of this journal are indexed in the following: *Biological Abstracts, Chemical Abstracts, Child Development Abstracts and Bibliography, Current Contents/Life Sciences, Excerpta Medica, Index Medicus, Psychological Abstracts, Science Citation Index*, and *The Psychological Reader's Guide*.

Developmental Psychobiology

Volume 17, 1984

Contents

NO. 1, JANUARY 1984

1 **Comparative analysis of the development of wing-flapping and flight in the fowl**
R. R. Provine, C. L. Strawbridge, and B. J. Harrison

11 **Ontogenesis of learning: I. Variation in the rat's reflexive and learned responses to gustatory stimulation**
M. B. Vogt and J. W. Rudy

35 **The development of self-recognition: A review**
J. R. Anderson

51 **Role of the caudate nucleus in recovery from neonatal mediofrontal cortex lesions in the rat**
J. P. Vicedomini, W. L. Isaac, and A. J. Nonneman

67 **Sex and strain differences in the developmental activity profile of the rat tested over clean vs home cage bedding**
J. Buelke-Sam, P. A. Sullivan, C. A. Kimmel, and C. J. Nelson

79 **Sucking behaviors of normal 3-day-old female neonates during a 24-hr period**
D. A. Rybski, C. R. Almli, E. G. Gisel, J. Powers, and M. Maurer, Jr.

87 **Maternal discrimination of pup sex in rats**
G. Richmond and B. D. Sachs

91 **The role of body size in climbing and locomotor behavior of protein-malnourished and well-nourished rats**
R. D. Hall

107 **Information for contributors**

NO. 2, MARCH 1984

109 **PKU, learning, and models of mental retardation**
B. J. Strupp, D. A. Levitsky, and L. Blumstein

121 **Effects of age of chick on social transmission of pecking preferences from hen to chicks**
C. Bartashunas and M. D. Suboski

129 **Spatial memory in preschool infants**
N. Foreman, M. Arber, and J. Savage

139 **The development of spontaneous body movement in prenatal and perinatal mice**
N. Kodama and S. Sekiguchi

151 **Effects of social experience on the corticosterone response of adult rats to pup cues**
J. L. Vogt, M. B. Hennessy, and S. Levine

161 **Nonnutritive, thermotactile induction of filial huddling in rat pups**
J. R. Alberts and B. May

183 **Hunger and the vocalizations of infant gerbils**
P. J. McCauley and R. W. Elwood

191 **Correlations among measures of playfulness and skillfulness in captive common marmosets (*Callithrix jacchus jacchus*)**
N. R. Chalmers and J. Locke-Haydon

NO. 3, MAY 1984

209 **Differential rearing experience, gender, and radial maze performance**
J. M. Juraska, C. Henderson, and J. Müller

217 **Development of hindlimb locomotor behavior in the frog**
D. J. Stehouwer and P. B. Farel

233 **Kittens as therapists: Social behavior sequences in isolated squirrel monkeys after exposure to young nonconspecifics**
D. K. Huebner and J. E. King

243 **Contribution of self-grooming to onset of puberty in male rats**
C. L. Moore and S. A. Rogers

255 **The mother–litter relationship in developmental rat studies: Cannibalism vs caring**
D. T. DeSantis and L. W. Schmaltz

263 **Ontogenesis of learning: II. Variation in the rat's reflexive and learned responses to acoustic stimulation**
R. L. Hyson and J. W. Rudy

285 **Ontogenesis of learning: III. Variation in the rat's differential reflexive and learned responses to sound frequencies**
J. W. Rudy and R. L. Hyson

301 **Neonatal sex-steroid hormones and muscular strength of boys and girls in the first three years**
C. N. Jacklin, E. E. Maccoby, C. H. Doering, and D. R. King

311 **Acoustic correlates of individuality in the cries of human infants**
G. E. Gustafson, J. A. Green, and T. Tomic

325 **Commentary: The maternal pheromone, *not* maternal odors, as an innate stimulus for the preweanling rat: A reply to Rosenblatt**
H. Moltz

327 **Commentary: Reply to Moltz**
J. S. Rosenblatt

NO. 4, JULY 1984

329 **Ontogeny of the behavioral effects of lysergic acid diethylamide in cats**
M. E. Trulson and G. A. Howell

347 **Maternal contributions to the development of masculine sexual behavior in laboratory rats**
C. L. Moore

357 **Appetitive conditioning in neonatal rats: Conditioned ingestive responding to stimuli paired with oral infusions of milk**
I. B. Johanson, W. G. Hall, and J. M. Polefrone

383 **Haloperidol differentially potentiates tonic immobility, the dorsal immobility response, and catalepsy in the developing rat**
M. E. Meyer, R. L. Smith, and C. Van Hartesveldt

391 **Mother–infant visual interaction in Japanese macaques**
C. L. Ehardt and B. G. Blount

407 **Short-term exposure to an odor increases its subsequent preference in preweanling rats: A descriptive profile of the phenomenon**
P. A. Caza and N. E. Spear

423 **The use of tactile and olfactory cues in neonatal orientation and localization of the nipple**
M. A. Larson and B. E. Stein

NO. 5, SEPTEMBER 1984

437 **Development of home orientation in offspring of protein-restricted cats**
P. V. Gallo, J. Werboff, and K. Knox

451 **Acceleration of puberty in female mice by a urinary chemosignal from pregnant or lactating females: Timing and duration of stimulation**
L. C. Drickamer

457 **Phenotypic basis for a feeding change in an insular population of garter snakes**
M. G. Greenwell, M. Hall, and O. J. Sexton

465 **Conditioning of aversion to an odor paired with peripheral shock in the developing rat**
D. Kucharski and N. E. Spear

481 **Human newborns' perception of male voices: Preference, discrimination, and reinforcing value**
A. J. DeCasper and P. A. Prescott

493 **Cochlear microphonics and action potentials mature and decline at different rates in the normal and pathologic mouse cochlea**
K. R. Henry

505 **Radial arm maze performance in rats following neonatal dopamine depletion**
D. E. Pearson, L. A. Raskin, B. A. Shaywitz, G. M. Anderson, and D. J. Cohen

519 **A developmental look at an auditory illusion: The precedence effect**
R. K. Clifton, B. A. Morrongiello, and J. M. Dowd

537 **The effects of retroactive and proactive interference on learning and memory in old and young rats**
G. Winocur

547 **Overstimulation, occipital/somesthetic cerebral cortical depth, and cortical asymmetry in mice**
O. F. C. Lindroos, M.-L. A. Riittinen, J. V. Veilahti, L. J. Tarkkonen, H. I. Multanen, and R. M. Bergström

555 **Familiar contextual odors promote discrimination learning in preweanling but not in older rats**
T. Wigal, D. Kucharski, and N. E. Spear

571 **Announcement**

572 **Announcement**

NO. 6, NOVEMBER 1984

573 **Behavioral development: A goal-directed dialogue**
G. W. Meier

587 **Influence of neonatal handling on blood pressure, locomotor activity, and preweanling heart rate in spontaneously hypertensive and Wistar Kyoto rats**
D. C. Tucker and A. K. Johnson

601 **Ontogenesis of learning: IV. Dissociation of memory and perceptual-alerting processes mediating taste neophobia in the rat**
M. B. Vogt and J. W. Rudy

613 **A specialization of taste aversion learning during suckling and its weaning-associated transformation**
D. J. Gubernick and J. R. Alberts

629 **Development of sound production in normal, isolated, and deafened kittens during the first postnatal months**
R. Romand and G. Ehret

651 **The effects of prenatal exposure to predictable or unpredictable stress on early development in the rat**
E. Fride and M. Weinstock

661 **Techniques for observing fetal behavior *in utero*: A comparison of chemomyelotomy and spinal transection**
W. P. Smotherman, L. S. Richards, and S. R. Robinson

675 **Eye-opening in kittens: Effects of light and some biological factors**
B. O. Braastad and P. Heggelund

683 **Book Review: Perspectives in Ethology. Volume 5: Ontogeny, edited by P. P. G. Bateson and P. H. Klopfer**
B. G. Galef, Jr.
